Deck for Marie

Chris Ketchel (NCPrime.com) 919-656-3862 has done extensive work on my little old fixer upper including a fantastic deck. He is detail oriented, fairly priced and extremely reliable.

How recently it seems that we were particularly preserving our walnut trees at the farm as very valuable future revenue source! With NC at the center of the furniture manufacturing world they seemed such a wise investment. The wood is certainly beautiful and I hope you find someone who will harvest and mill them and make something beautiful.

We wanted to recommend a very good company for hardwood floor installation and repair. It's called Bohemia Floors. The owner is Mark and his number 308-8500 and his e-mail is _M...@bohemiaco.com (mailto:M...@bohemiaco.com) .

He installed a nice wood floor in our office. When we had a flood only a short time later, we thought we'd have to put new wood floors in. Thanks to his advice, we were able to save the floors (and a lot of \$)
